

ANIMAL COOTIE CATCHER

Materials: Animal Cootie catcher (attached).

A cootie catcher (also known as a fortune teller) is a form of origami that will give each player a message. In this case, we have a cootie catcher that will help educate you on animals and the different tracks they make in the winter!

To complete this activity, print out the animal cootie catcher template, cut out the game, and start folding! We recommend using a YouTube video to help you get the folds correct. Once you have the folding complete, play with your friends and family to see what animal they get and its corresponding winter tracks!

Tracking Cootie Catcher
