Join the PCC Ecologists on our free Winter Outdoor Survival Program where you will dive into animal behaviours and their winter survival techniques. Register for one or both sessions in February as you learn about animal shelters while you create your own shelter, and about the essential outdoor survival tips while you look at the introductory fire building. You will also be exploring predator and prey dynamics, learning about different predators and prey in Wascana Centre in our animal tracking session. Here you will hone your orienteering skills so you don't get lost breaking in the snowshoes on the Wascana's wintery landscape.

## Session 1

Date: February 20, 2024

Time: 1:00 - 3:00pm

Topic: Shelter building, animal homes, introduction to fire building

## Session 2

Date: February 22, 2024

Time: 1:00 - 3:00pm

Topic: Orienteering, animal tracking, snowshoeing

- \* Please have your child prepared to walk outside as we will be outdoors for the entire session, weather permitting (i.e. appropriate footwear, jackets, etc.).
- \* Sessions will be run in and around the Habitat Conservation Area (HCA). Participants are to be dropped off and picked up by the entrance to the HCA. A map and further information will be sent out closer to the session date.
